

Cashews

We are the global leader in raw cashew nut trade, blanching cashew kernels and ingredients.

Sourcing

Since 1989, we have built exceptional cashew sourcing networks across Asia and Africa.

Dedicated teams work in farming communities all year round, providing timely insight on raw cashew nut quality and crop profiles. This is enhanced by long-term relationships with large grower, cooperative and local trader networks, minimizing the risk of supply interruptions for our customers.

Processing

in India and Vietnam, we run fully-mechanized processing facilities that operate under superior safety and hygiene parameters. We have shortened process times, minimized control points, and incorporated precision grading and sorting to deliver more consistent quality cashews, customized cashew grades and ingredients as well as Kosher and Organic-certified varieties. Most of our facilities are HACCP and BRC-certified, enabling us to offer our customers full traceability to international standards. We are the largest cashew processor in Africa. Our efforts to process raw cashew nuts where they are grown is appreciated by governments, customers and other agencies.

World Class Innovation

Olam owns world 's best technology of Kernel Grad-ing, ultra modern color sorter and sieves. It ensures high quality product with lower FM and accurate grade or size , this has helped Olam in building a large base of satisfied customers. At Olam we realize that while hi-tech equipment is vital , skilled people are just as important too. Our team in Vietnam has extensive experience in processing cashew wholes and ingredients so you can rest assured that things always run smoothly.
