39.7 million MT Sales Volume(FY 2019)

S\$ 32.9 billion Sales Turnover(FY 2019)

53.6% owned by Temasek Holdings & 17.4% by Mitsubishi Corporation

## Where are we...?

#1 global supplier of cashew.

#1 global almond grower.

#1 global supplier of dehydrated onion and garlic.

#1 focused supplier of cocoa beans and products.

#3 in global supply of coffee and rice.

## Did you know...?

- For every 3 chocolate bars that are consumed in the world, 1 is made from beans we handle.
- The rice we handle could provide everyone in the world with over 2 servings a year.
- Olam trades almost enough wheat to supply everyone in the world with 1 loaf of bread.
- The volume of beans we handle can supply 1 cup of coffee a week, to everyone in the world.

# Spices

Olam's expertise in spices and vegetable ingredients span across the entire supply chain, from seed to shelf. Through our sourcing and processing strength, we process and add value to more than 10,000 tonnes of spices every year, and we customize products for world's leading food companies that help them create world class products with appeal, aroma, flavor, taste, quality, integrity, safety and compliance.

32	Cassia Whole	Whole Bark		100000045495

## | NPRD and Quality

- 🌱 Innovation capability to develop and customize products that match customer specification.
- 🌱 ISO 17025 accredited chemical and microbiology laboratory capable of testing several insecticides, herbicides, fungicides, mycotoxins, allergens and deliver products that comply with different country regulations.
- 🌱 Developing products with unique and distinct aroma, flavour and taste.
- 🌱 In-process quality testing at multiple stages of processing ensuring product quality, integrity and food safety.

## | Sustainability

Olam is committed to sustainable farming, environmental stewardship, personnel safety, farm profitability, product safety and quality. Olam's backward integration program in chilli, seeds spices, turmeric and black pepper is part of the corporate objective of growing responsibly and re-imagining agriculture of the future.

We work with farmers and help them with soil testing, seed quality, pest disease control measures and post-harvest practices. This helps them deliver safe and best spices to our processing facilities. Olam has an unwavering commitment to ensuring fair economic returns to the farmer and ensuring consistent quality of spices to our customers.

### ➤ Integrated Pest Management

- 🌱 Olam's IPM chilli program is one of the oldest, robust and pioneering initiative in sustainable spices production in India.
- 🌱 We work with more than 1200 farmers in the growing regions of different states in India and across spices like chilli, cumin, coriander, turmeric and black pepper on sustainable agricultural practices.
- 🌱 Olam's highly trained field staff regularly monitor the farms and document each farmer's crop and post-harvest practices.

### ➤ AtSource

AtSource is a comprehensive sustainable sourcing solution for agricultural raw materials and food ingredients. We connect our customers directly to the source of supply at each stage of the product's journey, guaranteeing traceability. We are re-imagining global agriculture by driving transformation in agricultural supply chain.

Olam is actively supporting these 11 UN Sustainable Development Goals

## Why Olam?

Authentic products

Sourcing from origin

Customized products
